Child Care Resource and Referral Network

Indiana's Child Care Resource and Referral Network is a trusted and knowledgeable resource for families, child care providers and community leaders

Families

CCRRs work closely with all families who have young children in Indiana to provide:

CHILD CARE REFERRALS

A customized list of child care providers that best fit the family's needs.

FAMILY RESOURCE NAVIGATOR

An assessment that helps us connect families to other resources including social support, economic assets, school-age education, training & careers, and health & well-being.

EDUCATION

Education on choosing a quality program, the different types of care, Indiana child care regulations and financial assistance options.

Families can apply for financial assistance at earlyedconnect.org

Quality care is important because a child's brain develops faster from birth to age five than at any other period of life!

Providers

CCRRs support child care providers by offering:

NETWORKING OPPORTUNITIES

Home providers play a vital role in Indiana's child care landscape. Family Child Care Networks provide a supportive community, professional development and introduce new opportunities.

UPDATES AND REFERRALS

Provider updates are crucial to providing accurate referrals to families. If you have vacancies or changed your hours, please let us know. We want to connect families with your program.

RESOURCES

Connections to state partners, community supports, grants and professional development.

Community

CCRRs build awareness of their services and the importance of early childhood education within communities by engaging with:

COALITIONS

We can connect you with local existing early learning coalitions or help you start one.

FAMILY SERVING ORGANIZATIONS

Partnerships are built with organizations to drive positive outcomes for families and communities and we encourage them to claim their programs for our Family Resource Navigator at brighterfuturesin.findhelp.com/claims

EMPLOYERS

85% of U.S. workers wish their employer offered child care benefits and Hoosier companies lose \$1.8 billion annually due to child care-related absences. We offer consultations to assess your employees' needs and discuss family-friendly policies and benefits.
